

# BRIGHTSIGN HD5

BUILT FOR INTERACTIVITY & 4K

Build experiences that go beyond the screen with the all new BrightSign HD5. This ultra-high-definition player is purpose-built for interactivity, 4K video, and demanding HTML5 animations. With its flexible I/O set, interactive peripherals like touch screens, proximity sensors, and buttons are easy to install and control. UDP and serial commands can be used to control environmental elements like lighting and conference room routing. Integrated partner solutions enable networks of players to deliver audience measurement, monetization, and analytics data to a centralized dashboard. A patented aluminum enclosure and slim form factor allows the device to operate reliably in extreme conditions. With its full set of I/O connections, high-quality 4K video, and advanced HTML performance BrightSign HD5 is the player of choice for captivating experiences that connect with your audience.
